## **INTRODUCTION**

*The Mission of the Missouri State Board of Nursing is to protect the public by development and enforcement of state laws governing the safe practice of nursing. In order to share with the public the services provided by the Board, this Annual Report has been compiled to illustrate the business of the Board in Fiscal Year 2004.*

*The Board consists of nine members who are appointed by the Governor and are responsible for enforcing the provisions of Chapter 335, RSMo, the Nursing Practice Act. The Nursing Practice Act is the accumulation of laws that exist to govern and regulate the professions of advanced practice nurses, registered professional nurses and licensed practical nurses. In addition, the Nursing Practice Act sets standards for the approval of nursing schools in Missouri.*

*When executing the provisions of the Nursing Practice Act, the Board must consider not only the nurse, but also the patient and the community. To this end, the members of the Board, together with its staff, work diligently to ensure only qualified applicants are admitted to the practice of nursing in this state. The Board also acts as a policymaking body by assisting and clarifying practice issues facing nurses on a daily basis. Most importantly, the Board investigates all complaints against nursing licensees and subsequently disciplines those nurses who are found to have violated the Nursing Practice Act.*

*Missouri has approximately 100,000 licensed registered professional nurses and licensed practical nurses today. Successful regulation is a partnership with hospitals, schools, and professional organizations. The board members are appreciative and grateful for the efforts and assistance provided by these groups.*

*In this rapidly changing arena, we pay tribute to all the nurses in Missouri who continue to provide excellence in nursing. We need to retain the nurses in Missouri and increase the number of those who want to have a career in nursing by being professional examples ourselves. Because of the commitment of those on the “front lines” in nursing, we are assured of continued quality care. Thank you to all of you who provide assistance to the Board and thank you to the nurses who make up our profession.*

# **Missouri State Board of Nursing**

## ***Mission***

The mission of the Missouri State Board of Nursing is to protect the public by development and enforcement of state laws governing the safe practice of nursing.

## ***Philosophy***

The members of the State Board of Nursing believe health care consumers have the right to safe, competent nursing care, regardless of their race, color, gender, national origin, religion, age, disability or veteran status. Consumers of nursing care can best be protected by the judicious use of the authority of the Nursing Board. The Board should promote communications among and work cooperatively with local, state, and national nursing organizations, other organizations and individual members of the health team to ensure safe and effective nursing care for the citizens of Missouri.

The Board should also promote communications among its members and work cooperatively with national regulatory agencies to maintain current knowledge of and have input into issues that may affect the practice and regulation of nursing in the state.

In addition to the aforementioned, the Board should serve to provide a forum for representatives of nursing practice and nursing education in order to provide a greater opportunity for resolving philosophical differences with greater benefits ultimately to the consumer.

## ***Committees***

## ***NURSING STUDENT LOAN AND LOAN REPAYMENT PROGRAMS***

The Missouri Professional and Practical Nursing Student Loan Program and the Missouri Professional Nursing Student Loan Repayment Program were developed in 1991 to address the state's nursing shortage by providing financial aid for individuals pursuing a nursing career. The need for nurses appears to be a cyclic phenomenon, and it was believed these programs would assist in the leveling of the supply to facilitate recruitment of nurses into areas of need when supply was exceeded by the demand. Ideally, these programs would help prevent a nursing shortage in Missouri. Realistically, due to the foresight in planning for a shortage before it occurred, it is expected that Missouri will fare better than many states through a nursing shortage.

These programs are supported through a surcharge on Missouri nurses' licenses. In addition, funds from these programs are used to match federal funds through the State Loan Repayment Grant, to repay the debts of Advanced Practice Nurses providing primary care services in underserved areas of the state. At this time, no general revenue is used to support these

### ***MISSOURI PROFESSIONAL AND PRACTICAL NURSING STUDENT LOAN PROGRAM***

The Missouri Professional and Practical Nursing Student Loan Program is designed to provide educational loans to professional nursing students (RN or higher) and practical nursing students (LPN) in exchange for service in an area of designated need in Missouri.

***Maximum loan amounts per academic year:***  
Professional Nursing Education..... \$5000  
Practical Nursing Education ..... \$2500

#### ***Repayment:***

Loans will be repaid through service in public or non-profit agencies or institutions in areas of defined need. This process is referred to as forgiveness. Forgiveness of the principal and interest will occur at 25% per year for qualifying employment in an area of defined need (and may be pro-rated for part-time employment). An area of defined need is a geographic area or a nursing specialty that is experiencing a shortage of nurses.

If employment does not meet the criteria for forgiveness, a recipient's loan obligation will enter cash repayment status. A maximum of 48 months is allowed for repayment. All loans accrue interest at the rate of 9.5% per annum beginning the date the check is issued.

### ***Student Loan Program***

In FY 2004 a total of 69 applicants were selected to receive loans. Sixty one loans of \$5,000 and one loan of \$3,000 were awarded to RN applicants. Six loans of \$2,500 and one loan of \$2,000 were awarded to LPN applicants.

### ***Investigation/Discipline***

The Board of Nursing may pursue disciplinary action against a licensee for violation of the Nursing Practice Act (see 335.066, RSMo). The Board is authorized to impose any of the following disciplines singularly or in combination:

- Censure—least restrictive discipline. The imposition of censure acts as a public reprimand that is permanently kept in the licensee's file.
- Probation—places terms and conditions on the licensee's license.
- Suspension—requires that the licensee cease practicing nursing for a period not to exceed 3 years.
- Revocation—most restrictive discipline. The imposition mandates that the licensee immediately loses his/her license and may no longer practice nursing in Missouri.

### ***Grounds for Denial or Discipline***

The Board may refuse to issue licenses or impose a disciplinary action pursuant to the provisions in Section 335.066, RSMo of the Nursing Practice Act for one or any combination of the causes listed below:

1. Use or unlawful possession of any controlled substance, as defined in chapter 195, RSMo, or alcoholic beverage to an extent that such use impairs a person's ability to perform the work of any profession licensed or regulated by sections 335.011 to 335.096.
2. The person has been finally adjudicated and found guilty, or entered a plea of guilty or nolo contendere, in a criminal prosecution pursuant to the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions or duties of

- any profession licensed or regulated pursuant to sections 335.011 to 335.096, for any offense an essential element of which is fraud, dishonesty or an act of violence, or for any offense involving moral turpitude, whether or not sentence is imposed.
3. Use of fraud, deception, misrepresentation or bribery in securing any certificate of registration or authority, permit or license issued pursuant to sections 335.011 to 335.096 or in obtaining permission to take any examination given or required pursuant to sections 335.011 to 335.096.
  4. Obtaining or attempting to obtain any fee, charge, tuition, or other compensation by fraud, deception or misrepresentation.
  5. Incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by sections 335.011 to 335.096.
  6. Violation of, or assisting or enabling any person to violate, any provision of sections 335.011 to 335.096, or of any lawful rule or regulation adopted pursuant to sections 335.011 to 335.096.
  7. Impersonation of any person holding a certificate of registration or authority, permit or license or allowing any person to use his or her certificate of registration or authority, permit, license or diploma from any school.
  8. Disciplinary action against the holder of a license or other right to practice any profession regulated by sections 335.011 to 335.096 granted by another state, territory, federal agency or country upon grounds for which revocation or suspension is authorized in this state.
  9. A person is finally adjudged insane or incompetent by a court of competent jurisdiction.
  10. Assisting or enabling any person to practice or offer to practice any profession licensed or regulated by sections 335.011 to 335.096 who is not registered and currently eligible to practice pursuant to sections 335.011 to 335.096.
  11. Issuance of a certificate of registration or authority, permit or license based upon a material mistake in fact.
  12. Violation of any professional trust or confidence.
  13. Use of any advertisement or solicitation which is false, misleading or deceptive to the general public or persons to whom the advertisement or solicitation is primarily directed.
  14. Violation of the drug laws or rules and regulation of this state, any other state or the federal government.
  15. Placement on an employee disqualification list or other related restriction or finding pertaining to employment within a health-related profession issued by any state or federal government or agency following final disposition by such state or federal government or agency.

# Discipline

**Board Decisions**—The Board reviews all complaints that are filed against the license of a nurse. Following an investigation, the Board determines whether or not to pursue discipline. If the board decides that disciplinary action is appropriate, the Board may pursue censure, probation, suspension, and/or revocation. ***During FY2004, the Board closed 666 complaints.***

*Note: Surrender is not considered a disciplinary action under current statutes.*

## *Hearings*

The Board has the authority to conduct two types of hearings. A violation hearing is held when a disciplined nurse violates the terms of a current discipline. There were 32 violation hearings held in FY2004. In addition, the Board of Nursing may also hold disciplinary hearings after the Administrative Hearing

Commission finds that there is cause to discipline the nurse's license. The Board's hearing offers the opportunity to the nurse to present information to the Board that could impact the severity of disciplinary action decided upon. There were 27 disciplinary hearings held in FY2004.

## ***Financial Information***

*The Board of Nursing operates solely on fees that are received from the licensees who are regulated by the Board. All fees received are deposited in the state treasury and credited to the State Board of Nursing. Money is then appropriated from the fund to the Board of Nursing by the Legislature each year to pay all administrative costs and expenses of the Board.*
